6 reasons to choose Windsor Doors

At Windsor Doors, we're true to who we are as authentic makers of quality garage doors.

Genuine durability predominately made from New Zealand steel. Made for next generation NZ families.

Access Authentic New Zealand made.

Windsor Doors supports New Zealand jobs which is why our garage doors are predominately made with high quality New Zealand steel.

Windsor Doors is New Zealand born and bred helping families and businesses for over 25 years.

Fingersafe Safety design is a standard feature for our Colorsteel® sectional doors.

Every door is custom designed and manufactured for your home or business.

Fixed price guarantee - a no surprise locked-in contract price.

Flat Woodgrain Sectional door in Colorsteel® Ebony

In the vibrant landscape of New Zealand, where innovation meets natural beauty, the style and craftsmanship of locally made garage doors stand as a testament to the country's dedication to quality and authenticity.

Drawing inspiration from the rugged landscapes, rich cultural heritage and modern architectural trends, New Zealand made garage doors by Windsor Doors seamlessly blend functionality with aesthetics to elevate both residential and commercial spaces.

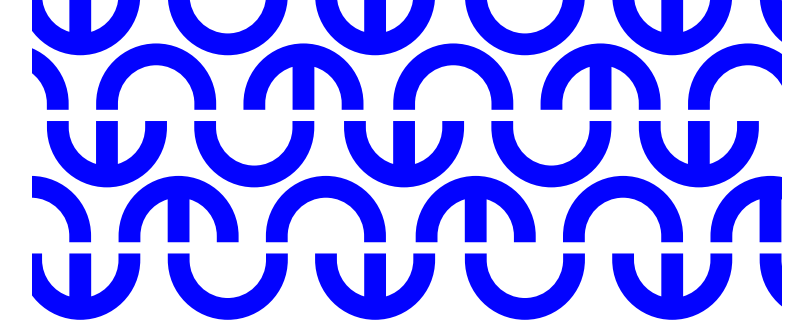

A statement of design and manufacturing excellence

FACT! a stylish garage door can improve a potential buyer's first impression and your home's resale value.

Custom Flush Mount Sectional Garage Door

Did you know that a garage door dominates about 30% of the front façade of most homes?

Woodgrain Colorsteel® Sectional Garage Door

Colorsteel® is a premium pre-painted steel product renowned for its durability, weather resistance and aesthetic appeal.

Made from high-strength steel, it is coated with a layer of zinc for corrosion protection, followed by a primer and a coloured topcoat. This multilayered coating system ensures long-lasting performance and resistance to the elements, including UV radiation, moisture and harsh weather conditions.

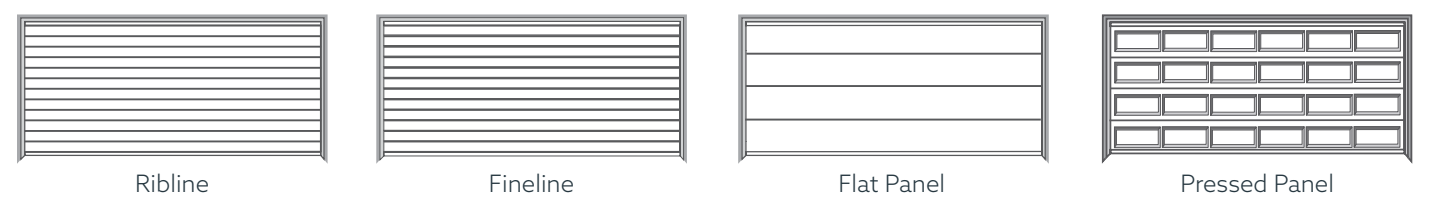

Colorsteel® is available in a wide range of colours and features various panel designs such as Ribline, Fineline, Flat Panel and Pressed Panel for aesthetic versatility.

Its lightweight nature, combined with its strength and low maintenance requirements, makes Colorsteel® a popular choice for both residential and commercial construction projects.

Smooth Flat Panel Sectional Garage Door in Colorsteel® Titania

Smooth Sectional Garage Door

Stylish, Strong and Durable

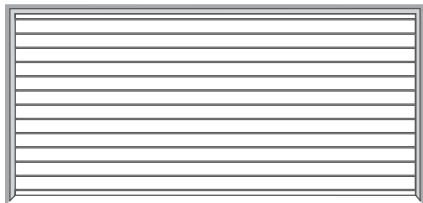

Windsor Doors innovative Smooth range delivers a smooth finish in a wide range of customised door designs.

This product is made from G300 coil, delivering a far smoother and virtually blemish and shadow free finish.

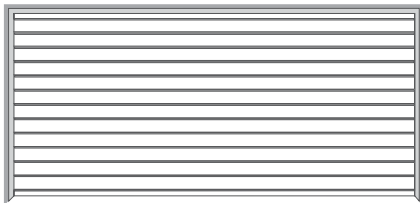

Shadowing or oil canning can be defined as a perceived waviness in the flat areas of metal panels. Oil canning is an inherent part of light gauge cold formed metal products, particularly those with broad flat areas such as garage doors.

For a superior flatness in our Flat Panel doors, 0.95mm heavy gauge steel is to be used. For exceptional flatness and corrosion resistance, 2.0mm aluminium is used.

Aluminium Composite

At Windsor Doors, we are committed to offering a diverse range of garage door options tailored to meet the demands of New Zealand households.

As part of our commitment, we offer aluminium composite panels which, whilst relatively new to residential properties, are quickly gaining popularity among households seeking a blend of aesthetics and functionality.

Aluminium Composite Garage Doors offer numerous benefits that make them an excellent choice for many New Zealand homes. These advantages include:

- Lightweight
- Weather resistance
- Vibration absorption
- Negative rebate
- Available in aluminium framed inserts or face fixed designs

White Aluminium Face Fixed Sectional Garage Door

Aluminium composite inserts and frames come in a variety of colours, allowing you to seamlessly integrate them into your existing decor or to make a bold statement with a standout hue.

With the option to install these products with aluminium frames or frameless, you have the flexibility to choose the style that best compliments your home.

Cedar Sectional Garage Door

Cedar Sectional Garage Doors are a popular choice among New Zealand homeowners seeking both style and durability. Given our diverse climate, with regions experiencing everything from coastal moisture to alpine conditions, cedar's natural resistance to decay and its ability to withstand varying weather makes it an ideal material for garage doors.

Many homeowners appreciate the traditional yet timeless aesthetic of cedar wood, which can seamlessly blend with both modern and traditional architectural styles commonly found in New Zealand.

Cedar Garage Doors are available in a variety of designs, including Horizontal, Vertical, Ply & Batten, allowing homeowners to choose the perfect option to suit their preferences and home design. Custom profiles can also be used on a strong aluminium box frame to match the cladding of the house.

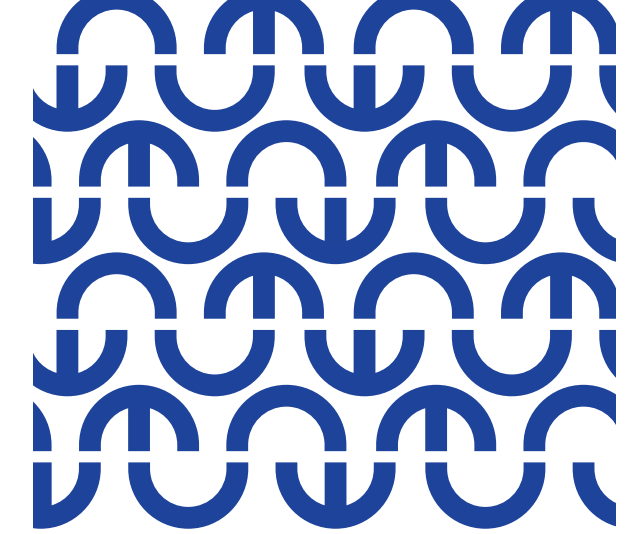

Custom Cedar Sectional Garage Door in White

Custom Cedar Sectional Garage Door

Custom Flush Mount Sectional Garage Door

**A stylish addition
to your home.**

Flush Mount Garage Door

Custom Flush Mount Garage Doors design seamlessly integrates with your home's exterior, allowing you to choose cladding that matches your façade. This design ensures that the surface of the garage door and the surrounding wall are on the same plane, creating a smooth and cohesive appearance.

They can be clad with various materials such as timber, composite timber, metal, aluminium composite panels and acrylic, among others. This versatility allows the garage door to blend in with your home's exterior materials, creating a unified look or standing out as a unique feature. The door remains almost invisible until opened, making it ideal for architecturally designed homes that aim for a continuous and harmonious exterior.

Flush Mount Garage Doors are suitable to take a total weight (frame and cladding) of up to 250kg for sectional doors. Order as frame only and get your builder to clad and paint on site to match the rest of your façade for that invisible look.

Custom Flush Mount Sectional Garage Door

Stunning timber look with the strength of steel.

Timbertec Steel Sectional Garage Door in Dark Cedar

Timbertec Steel Garage Door

The Timbertec Steel Sectional Garage Door is a versatile and reliable choice for homeowners crafted from high-quality steel. Its weather-resistant properties ensure it can withstand New Zealand's often unpredictable climate without compromising performance or appearance.

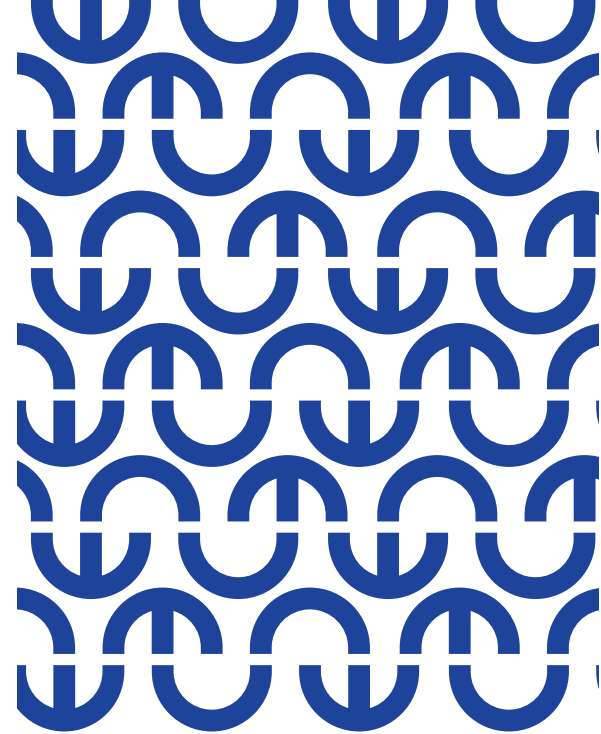

Timbertec is an ideal choice for homeowners looking to match their garage door colour with their powdercoated front door.

Advantage: Ideal for matching your garage door colour to your front door!

Colour options

Additionally, Windsor Doors reserves the right to vary or delete colours without notice.

UniCote® LUX Garage Door

UniCote® LUX Garage Doors are made from an imported pre-painted steel product designed to suit New Zealand high-end architecture.

Combining the world's best coil coating technology with rigorous testing to New Zealand standards, it meets all weather conditions, resistant to chipping, peeling or cracking.

Built to last

UniCote® LUX uses a hot-dipped aluminium/ zinc alloy-coated steel substrate. The outer layer is a polyester topcoat baked onto a polyester primer using the latest infrared reflective pigments. The result is an extremely durable paint system built to resist UV damage from New Zealand's harsh weather, providing excellent colour and gloss retention.

**Made from a luxury material to
suit high-end architecture.**
